

Boost your career with the CFA Designation

The [CFA Institute, the world's largest association of investment professionals](#), is globally recognised as the definitive standard within the financial industry.

This partnership gives a strong indication of the close ties between EDHEC and the industry and further emphasises the quality of EDHEC programmes and their relevance to business. Its broad curriculum gives equal attention to corporate finance and capital markets and allows participants to develop expertise in corporate financial strategy, investment banking, financial accounting, reporting and analysis, risk management; and equity and fixed income portfolio management. CFA curriculum textbooks are used as core programme readings to maximise participants' industry readiness.
